The World's Hardest Maze

Dare you enter?
Can you escape?

Way in

Know what makes
this maze so hard?

invisible walls

Serously. Take a look.
See any walls in there?

Me neither.

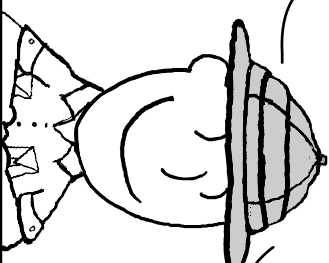

But I made it through
and so can you. Just trace
a path until you reach the
treasure then find the way out.

Watch for quicksand, clowns,
and a hungry sharkosaurus!

And would you mind looking for
my sunglasses while you're at it?

Thanks.
